**Satellite Coordinates for Today's Broadcast:**

Below is a note from Mary Alice Boliek at WRAL about satellite coordinates for both the 6 p.m. news conference and for pool footage from today. She can be reached at 919-821-8600.

"We are the pool for the aerial tour with the Governor today. We are also going to be the pool for her 6pm presser. I am really hoping that the aerals get to the satellite truck way before the 6pm presser so we can feed them out with out a problem. We go on air from 6pm-7pm using the same coordinates that are booked for our show so if the aerals are not able to be fed until after the 6pm presser, just need you to keep a look out for them between the coverage we have on the satellite. I will do my best to keep everyone updated. I did however want to go ahead and send out the 2 sets of coordinates for the aerial tour pool feed and 6pm presser to ensure everyone can tune in the satellites. The first set of coordinates below is the window WRAL already had
